

FEDERALLY EMPLOYED WOMEN AND THE OFFICE OF PERSONNEL  
MANAGEMENT PARTNERSHIP

Federally Employed Women (FEW) is a private membership organization that fully supports the goals of the Federal Women's Program. FEW works closely with the Office of Personnel Management (OPM) to enhance Federal career opportunities for women.

FEW's governing board maintains close contact with OPM regarding employment issues of concern to women. As such, FEW regional managers, and chapter officers throughout the world work with federal agencies to provide women with employment, career development, and training opportunities in the Federal Government.

The OPM and FEW recognize the value of a cooperative working effort, and will continue to work together to improve employment and career development opportunities for women in the Federal civil service.
