### How has membership in FEW influenced your career?

I have met my main Mentor through FEW. She was my first contact and has been an inspiration and support of me since 2007. I have tried new skills because of her influence. I was able to continue and finish my Bachelor Degree

because of the FEW Foundations scholarship in 2009 through Grantham University. This degree has helped me to promote up to my next grade level and a chance to move within my agency. I believe FEW has been the catalyst in my career movements.

**Are you a previous recipient of this scholarship? If yes, list all NTPs (by year) in which you were a recipient.**

I have never won a scholarship to an NTP.

**How will attendance at the NTP impact your career?**

I believe this year's NTP will benefit me in many ways. One is since this year is a different format and includes the Advocacy Day, I know this would benefit me directly. I am responsible to represent my agency at various levels which include interaction with elected officials here in Arizona. I know what I would learn from the Advocacy at the Capitol would help me.
